## HOT TUB

### HOT TUB HIRE

Thank you for booking a Hot tub with Hermione Rose Pamper and Parties!

Your hire starts from the day after your hot tub is delivered this is to allow time for the hot tub to reach adequate temperature. A socket will be required to heat up the hot tub and a hose pipe to fill it with water.

We need to ensure that we deliver and collect these items on time and so we confirm below the dates and times we have agreed with you.

- Bank Transfer ( HSBC s/c 401635 Acc 21776169)

Please always use your name and date of party as a reference.

Your final balance will be due 14 days before delivery.

### ***Care and Maintenance of the hot tub.***

***When we deliver and set up your hot tub you will be supplied with Chlorine tablets in a floater which will be added to the water and a filter. We will do a demonstration to show you how to use the hot tub.***

***The floater should stay in the water while not in use and can be taken out or left in during use.***

***After use please return the floater.***

***After each use please remove the filter and wash out then reattach, this will ensure your water stays clean and healthy during your hire.***

### **HOT TUB REMOVAL - OUR SPECIAL REQUEST**

As you may know, it takes some time to empty the hot tub, so please can you make sure that the hot tub is emptied the night before the date of pickup above. Failure to comply with this request will unfortunately incur a £25.00 nightly charge with a new collection date.

### **HOW TO EMPTY YOUR HOT TUB**

To empty the hot tub you need to unscrew the filter inside the hot tub, and remove the outer unit.

Remove the filter and then disconnect the pump, fitting in the stopper valves for protection and preventing the water pouring straight out.

Once disconnected you can then connect a hose to the hot tub and drain the water out by removing the drain stopper valve. This method will drain the majority of water from the spa, however some may still remain at the bottom. This can be emptied using a plastic bowl.

If you should have any issues with your hot tub I have left instructions in your box which you can refer to alternatively please call Nicola on 07702649011.

If you get the error code E02 this means your filter needs cleaning, unscrew the fitter inside the hot tub and rinse through. Alternatively there is a spare filter in your box.
